Subject: Gold King Mine winter system coordination

Kerry,

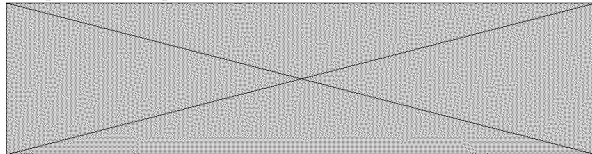

As we discussed this morning, I understand you are preparing an RFP for companies to provide a mitigation system for the winter for the water from the Gold King Mine and would like a brief review at the state when a draft is ready.

Although I was asked to visit the site and be available for technical ideas, we need to transition state level coordination for mine response issues to Bruce at Division of Reclamation Mining and Safety (DRMS) and Doug and Monica's folks in our Hazardous Materials and Waste Management Division (HMWMD). I am still available for ideas to support them and you. When you send materials, can you include Bruce, Doug, and Monica?

Thanks. David.

David Kurz, P.E.
